

Improving the Forcing Notrump

1NT Forcing: 1NT forcing is the garbage bucket of all bids. It is such a stupid, non-descriptive and obtuse treatment that no one would play it, if it were not absolutely necessary! We feel that we gain a lot more by being able to signal a Game Force with a 2/1 bid and for that reason alone, it is worth it! But there must be ways to improve the Forcing NT and the subsequent bids.

Let's start by breaking down the type of hands that would utilize this convention. Firstly, it is only used after a 1 of a Major opening. So, the first limitation is that the Opener has a 5+ card suit in the Major bid, and his hand is 11 - 21 points. As for the 20 - 21 range, many of these hands will be put in to either 2NT (balanced hands) or upgraded to 2♣ (unbalanced hands).

Essentially, that leaves an exceptional 11 to a normal 19 as the range described by 1 of a Major opener. These hands can be broken down into 3 categories, definable by points and Losing Trick criteria, as follows:

1. Minimum Hands: 11 - 15 points, ≥ 7 LTC. It is a hand that has roughly 1/3 of the total values in the deck. The bid is made in the hope that if Partner also has a similar size hand, we may make a Game and earn Game bonus.
2. Intermediate Hands: 15 - 17 points, 5 or 6 LTC. It is a hand that has enough values that if Partner holds his normal $\frac{1}{4}$ share of the values in the deck, that a Game is very likely. All of these hands have either a 6+ card Major or a side 5 card suit. They are described by jumping to the 3 level in the second suit. The hands in the Intermediate point range without 5/5 or better shape usually cannot meet the LTC requirement and therefore are bid in the same manner as the minimum hands until the Responder declares Invitational values. Then the appropriate Game can be bid.
3. Strong Hands: 18 - 21 points, 4 or 5 LTC. It is the hand that can make a game opposite a Partner that barely eked out a response.

Now that we have defined the Opener's hand, let's examine what a Forcing NT response looks like. Its characteristics are:

1. Apparent misfit for the Major (except the 3 card Limit Raise).
2. Less than 2/1 values. Can't make Game if partner has a Minimum. Slam is highly unlikely.
3. Enough to respond. If you pass, you could possibly miss a Game or (although unlikely) a Slam bonus opposite a Strong hand from the Opener.

So, 6 - 11 points and most likely a misfit! There are 2 types of hands that need special handling:

1. Constructive hands with 8 - 11 points that could possibly make Game opposite an Intermediate range Opener (and very few exceptional Minimums). This includes the one fitting hand (3 cards LR).
2. The hand that is best played in a partial in the Responder's suit. A suit that he hasn't had a chance to show as yet.

Following is an attempt to better handle these various combinations.

Major suit Openers 1♠ and 1♥ have traditionally been dumped in to the same bucket by the system designers. But in fact, they each have significant characteristic differences. It is crucial to address each one separately. But it is also highly desirable to handle them in somewhat similar manners for the sake of memory! The following tries to cater to these limitations.

1♠ Openers: After the Forcing NT, if the Opener has a very descriptive hand he will bid it now.

1. An Intermediate Opener with a 5 card side suit will jump to 3 of the side suit.
2. An Intermediate hand with 6+ ♠ will jump to 3♠.
3. A Strong 5332 shaped hand will bid 3NT, directly. Responder may bid 2-under Transfers over 3NT when appropriate. The in-between step will be the super-accept, except that 4NT will always be to play.
4. A Strong hand with 4+ card ♦ suit will now raise 1NT to 2NT. (More on the rest of the ♦ side-suit sequences later).
5. A hand that would have opened 4♠, if it weren't for that pesky side card can now bid 4♠.

All of the Minimum and Intermediate hands that do contain 4+ cards in a Red suit will bid 2 of that suit. All other hands will relay to 2♦ by bidding 2♣. If the Responder accepts the relay, the Opener will bid 2 of the appropriate Major as described, unless he has something quite special to show.

The relay breaks by the Responder are at least as important as the relay accepts are. Relay breaks are done with the following type of hands:

1. Invitational hand that has a 6+ card minor suit. This bid doesn't exist if you play 2/1 in Minors not Forcing to Game.
2. Invitational hand with 5+ card ♥ suit.
3. All Constructive (9 - 11) hands without a fit.
4. 3 cards Constructive Raise (8 - 11).

Minimum (and Intermediate) 1♠ Openers: Intermediate hands of 5332, 5431, 5422 shape are treated exactly like minimum hands, and will rely on the Responder to show the extras by breaking relay before searching for a Game.

1NT		Non-Forcing	Minimum hand. May be passed.
1♥	1NT	Forcing	<4 ♠. Responding Values (< 2/1 GF).

XYZ (or New Minor Forcing) applies over the first sequence.

After the Forcing NT reply, if the Opener has a very descriptive hand he will show it immediately.

1. An Intermediate Opener with a 5 card side suit will jump to 3 of the side suit.
2. An Intermediate hand with 6+ ♥ will jump to 3 ♥.
3. A Strong 5332 shaped hand will bid 3NT, directly. Responder may bid 2-under Transfers over 3NT when appropriate. The in-between step will be the super-accept, except that 4NT will always be to play.
4. A reversible hand (Intermediate or Strong) will bid 2♠. Lebensohl applies.
5. A hand that would have opened 4♥, if it weren't for that pesky side card can now bid 4♥.

Any Minimum or Intermediate 1♥ Opener containing 4 cards ♦ suit will bid 2♦ over the forcing NT.

All other hands will relay to 2♦ by bidding 2♣. If the Responder accepts the relay, the Opener will bid 2♥, unless he has something quite special to show.
